GENERAL INDEX, 112, NO. 1, 2 AND 3 (1963)

Allen, R. See Sims
Aragon, P. R. See Galton
Arbiter, D. Brain lesions in monkeys infected with *Pasteurella tularensis*, 237
Arndt, W. F., E. J. Young and R. E. Ritts. Staphylococcal enhancement of susceptibility to bacterial infection in the mouse, 255

Bacillus anthracis, factors affecting virulence, 187
in vivo effects of culture filtrates, 226
Block, M. See Young
Bonventre, P. F. See Eckert
Bordetella pertussis, histaminase in sensitized rats and guinea pigs, 107
Boyd, F. M. and H. M. Edwards, Jr. The effect of dietary protein on the course of various infections in the chick, 53
Brucellosis, incidence in Alaska, 100
Burgdorfer, W., E. G. Pickens, V. F. Newhouse and D. B. Lackman. Isolation of *Coxiella burnetii* from rodents in western Montana, 181

Cell culture, serum-free media, 213, 221
Chapin, M. and G. R. Dubes. An adenine-resistant mutant of poliovirus, 247
Chicks, dietary protein and infection, 53
Clostridium perfringens, intermediary metabolism, 113
Colburn, R. W. Isotopic studies of ribose, purine, pyrimidine, and amino acid formation in *Clostridium perfringens*, 113
Coxiella burnetii, isolation from wild rodents in Montana, 181
Craighead, J. E., P. H. Peralta, T. G. Murnane and A. Shelokov. Oral infection of swine with the encephalomyocarditis virus, 205
Cryptococcus neoformans, effect of thiamine on infection in mice, 125

Diphtheria, lung lesions in experimental infections with, 195
Drawdy, J. F. See Kautter
Dubes, G. R. See Chapin
Dusanic, D. G. and R. M. Lewert. Alterations of proteins and free amino acids of *Australorbis glabratus* hemolymph after exposure to *Schistosoma mansoni* miracida, 243

Easterday, B. C. and R. F. Jaeger. The detection of Rift Valley fever virus by a tissue culture fluorescein-labeled antibody method, 1
Eckert, N. J. and P. F. Bonventre. In vivo effect of *Bacillus anthracis* culture filtrates, 226
Edwards, H. M., Jr. See Boyd
Eichbaum, F. W. Vascular lung lesions in experimental diphtheria, 195
Ekstedt, R. D. Studies on immunity to staphylococcal infection in mice. I. Effect of dosage, viability, and interval between immunization and challenge on resistance to infection following injection of whole cell vaccines, 143
II. Effect of immunization with fractions of *Staphylococcus aureus* prepared by physical and chemical methods, 152
Encephalomyocarditis virus, oral infection of swine, 205

Finland, M. See Martin
Flies, host-contaminant biology of, 37
Fusobacterial and fusospirochetal infections, 84

Gadebusch, H. H. and P. W. Gikas. Natural host resistance to infection with *Cryptococcus neoformans*. II. The influence of thiamine on experimental infection in mice, 125
Gaines, S. See Tully
Galton, M. M., P. R. Aragon, A. V. Jacalne, E. B. Shotts, Jr. and C. R. Sulzer. A new leptospiral serotype in the pyrogenes group, *Leptospira manilae*, 164
Gardner, E. W., S. T. Lyles, C. E. Lankford and S. J. Hagens. *Vibrio cholerae* infection in the embryonated egg, 264
Gifford, G. E. See Tucker
Gikas, P. W. See Gadebusch
Greenberg, B. and V. Miggiano. Host-contaminant biology of muscoid flies. IV. Microbial competition in a blowfly, 37
Griep, J. See Murphy

Hagens, S. E. See Gardner
Hampp, E. G. and S. E. Mergenhagen. Experimental intracutaneous fusobacterial and fusospirochetal infections, 84
Hartshorn, D. See Young
Herlocher, M. L. See Murphy
Higuchi, K. Studies on the nutrition and metabolism of animal cells in serum-free media. I. Serum-free monolayer cultures, 221
Also see Tribble
Hill, W. C. See Tucker
Hoogstraal, H. See Huff
Huff, C. G. and H. Hoogstraal. *Plasmodium lemuris* n. sp. from *Lemur collaris* E. Geoffroy, 233
Huntley, B. E., R. N. Philip and J. E. Maynard. Survey of brucellosis in Alaska, 100

Jacalne, A. V. See Galton
Jaeger, R. F. See Easterday
Jandl, J. H. See Martin
Jannach, J. R. See Krasner

Kautter, D. A., S. J. Silverman, W. G. Roessler and J. F. Drawdy. Virulence of *Listeria monocytogenes* for experimental animals, 167
Kenny, G. E. and M. E. Pollock. Mammalian cell cultures contaminated with pleuropneumonia-like organisms. I. Effect of pleuropneumonia-like organisms on growth of established cell strains, 7
Krasner, R. I. and J. R. Jannach. The streptokinase-plasminogen system. II. Its effect on the development of local streptococcal infections in rabbit skin, 134
Kuwajima, Y. See Niwa

Lackman, D. B. See Burgdorfer
Lankford, C. E. See Gardner
Laxson, C. See Tokuda
Leptospira manilae, a new serotype in the pyrogenes group, 164
Leukemia, immunization of C58 mice to line I_b, 28
Lewert, R. M. See Dusanic
Lipton, M. M. and A. J. Steigman. Human coproantibody against polioviruses, 57
Listeria monocytogenes, virulence for experimental animals, 167
Lyles, S. T. See Gardner

Martin, C. M., J. H. Jandl and M. Finland. Enhancement of acute bacterial infections in rats and mice by iron and their inhibition by human transferrin, 158
Maynard, J. E. See Huntley
Mergenhagen, S. E. See Hampp
Mice, anaphylactic reactivity of, 77
Miggiano, V. See Greenberg
Munoz, J. See Tokuda
Murnane, T. G. See Craighead
Murphy, W. H., M. L. Herlocher and J. Griep. Immunization of C58 mice to line I_b leukemia, 28

Newhouse, V. F. See Burgdorfer
Niwa, M., Y. Yamadeya and Y. Kuwajima. Reduced activity of histaminase in rats and guinea pigs sensitized with culture supernatants of *Bordetella pertussis*, 107

Pasteurella tularensis, brain lesions in infected monkeys, 237
Peralta, P. H. See Craighead
Phagocytosis, effect of pH on, 47
Philip, R. N. See Huntley
Pickens, E. G. See Burgdorfer
Plasma cells, appearance in newborn hamsters, 67
Plasmodium lemuris, new species from lemur, 233
Pleuropneumonia-like organisms, effect on growth of established cell strains, 7
Poliovirus, adenine-resistant mutant, 247
human coproantibody against, 57
Pollock, M. E. See Kenny

Rabies, pathogenesis in bats, 17
Rhian, M., J. M. Riley, V. L. Wolfe and A. H. Simmons. Change in virulence of *Bacillus anthracis* spores as affected by solids and challenge route, 187
Rift Valley fever, detection by tissue culture fluorescein-labeled antibody method, 1
Riley, J. M. See Rhian
Ritts, R. E. See Arndt
Roessler, W. G. See Kautter

Schistosoma mansoni, effect of exposure to miracidia on snail hemolymph, 243

Shelokov, A. See Craighead
Shotts, E. B. See Galton
Silverman, S. J. See Kautter
Simmons, A. H. See Rhian
Sims, R. A., R. Allen and S. E. Sulkin. Studies on the pathogenesis of rabies in insectivorous bats. III. Influence of the gravid state, 17
Staphylococcus aureus, enhancement of simultaneous infection with other bacteria in the mouse, 255
immunization of mice, 143, 152
Steigman, A. J. See Lipton
Streptococci, role of streptokinase-plasminogen system in local skin infections, 134
Sulkin, S. E. See Sims
Sulzer, C. R. See Galton

Tigertt, W. D. See Tully
Tokuda, S., R. S. Weiser, J. Munoz and C. Laxson. Comparative studies on the anaphylactic reactivity of mice of the Swiss, A/Jax and DBA/2 strains, 77
Transferrin, effect on bacterial infections in rats and mice, 158
Tribble, H. R., Jr. and K. Higuchi. Studies on the nutrition and metabolism of animal cells in serum-free media. II. Cultivation of cells in suspension, 221
Tucker, D. N., W. C. Hill and G. E. Gifford. The effect of pH on phagocytosis by rabbit mononuclear phagocytes, 47
Tully, J. G., S. Gaines and W. D. Tigertt. Studies on infection and immunity in experimental typhoid fever. IV. Role of H antigen in protection, 118
Typhoid fever, role of H antigen in protection, 118

Vibrio cholerae, infection of the embryonated egg, 264

Ward, H. See Young
Weiser, R. S. See Tokuda
Wolfe, V. L. See Rhian

Yamadeya, Y. See Niwa
Young, E. J. See Arndt
Young, R. L., H. Ward, D. Hartshorn and M. Block. The relationship between antibody formation and the appearance of plasma cells in newborn hamsters, 67

GENERAL INDEX, 113, NO. 1, 2 AND 3 (1963)

Actinobacillus, a hemolytic variety from irradiated swine, 186
Acute respiratory disease, gamma globulin disturbances in dual infections, 123
Altland, P. D., B. Highman and F. Smith. Immune response in rabbits exposed to high altitude, 228
Anthrax, modification by ionizing radiation, 219
Antibodies,
  antigen dosage and Forssman hemolysin response in rabbits, 155
  in rabbits exposed to high altitude, 228
Arboviruses, inactivation of intact virus and infectious nucleic acids, 195

Berdjis, C. C., W. S. Gochenour, Jr. and J. E. Henderson. Modification of anthrax by ionizing radiation, 219
Berry, L. J. See Previte.
Bohnhoff, M. See Miller.
Briggs, N. T. Immunological injury of mast cells in mice actively and passively sensitized to antigens from *Trichinella spiralis*, 22
Brown, A. See Mika.
Bruce, J. I. See Lichtenberg.

Cantrell, W. and L. P. Kendrick. Cortisone and antimalarial drug activity against *Plasmodium berghei*, 144
Cantrell, W. and W. G. Moss. Partial hepatectomy and *Plasmodium berghei* in rats, 67
Cholera, antigen in stool filtrates, 99
Crawford, Y. E. See Lytle.

Ehrlich, R. See Purvis.
Ekstedt, R. D. Studies on immunity to staphylococcal infection. III. A protein antigen that induces protection against challenge with saline-suspended organisms, 105
Endotoxin, potentiation in mice by cold exposure, 43

Faine, S. See Lane.
Finkelstein, R. A., S. Mukerjee and B. C. Rudra. Demonstration and quantitation of antigen in cholera stool filtrates, 99
Fishel, C. W. See Szentivanyi.
Fisher, S. Experimental staphylococcal infection of the subcutaneous tissue of the mouse. II. Promotion of the infection with staphylococcal cells and products, 213
Fisher, S. and J. E. Robson. Experimental staphylococcal infection of the subcutaneous tissue of the mouse. I. Bacterial population changes in relation to tissue response, 204
Flick, J. A. See Pincus.
Fukui, G. M. See Janssen.

Gaines, S. See Tully.
Gochenour, W. S., Jr. See Berdjis.

Hardy, F. M. The growth of Asibi strain yellow fever virus in tissue cultures.
  I. Sensitivity and capacity of tissue cultures, 1
  II. Modification of virus and cells, 9
Harr, J. R. See Wetmore.
Henderson, J. E. See Berdjis.
Herman, Y. F. See Wetmore.
Highman, B. See Altland.

Jannach, J. R. and R. I. Krasner. The streptokinase-plasminogen system. III. Histopathology of enhanced streptococcal virulence in rabbit skin due to activation of this system, 77
Janssen, W. A., W. D. Lawton, G. M. Fukui and M. J. Surgalla. The pathogenesis of plague. I. A study of the correlation between virulence and relative phagocytosis resistance of some strains of *Pasteurella pestis*, 139
Jensen, S. B. See Mergenhagen.

Kendrick, L. P. See Cantrell.
Krasner, R. I. See Jannach.

Lane, G. K. and S. Faine. Urinary antibody during renal damage due to leptospiral infection in mice, 110
Lawton, W. D. and M. J. Surgalla. Immunization against plague by a specific fraction of *Pasteurella pseudotuberculosis*, 39. Also see Janssen.
Leptospira, urinary antibody and renal damage in mice, 110
Lichtenberg, F. von, E. H. Sadun and J. I. Bruce. Host response to eggs of *Schistosoma mansoni*. III. The role of eggs in resistance, 113
Listeria monocytogenes, identification and typing with somatic precipitinogens, 151
Lowry, N. P. See Quinn.
Lytle, R. I., W. E. Pierce and Y. E. Crawford. Multiple infections in acute respiratory disease. II. Gamma globulin disturbance in dual infections and possible significance in acute rheumatic fever, 123

Martin, G. R. See Mergenhagen.
Mergenhagen, S. E., E. Schiffman, G. R. Martin and S. B. Jensen. Stimulation of resistance to infection by lipoid derived from *Neisseria meningitidis* endotoxin, 52
Mika, L. A., J. E. Officer and A. Brown. Inactivation of two arboviruses and their associated infectious nucleic acids, 195. Also see Pirsch.
Miller, C. P. and M. Bohnhoff. Changes in the mouse's enteric microflora associated with enhanced susceptibility to *Salmonella* infection following streptomycin treatment, 59
Moss, W. G. See Cantrell.
Mukerjee, S. See Finkelstein.
Muraschi, T. F. and V. N. Tompkins. Somatic precipitinogens in the identification and typing of *Listeria monocytogenes*, 151

Neisseria meningitidis, stimulation of resistance by lipoid from endotoxin, 52

Officer, J. E. See Mika.

Pasteurella pestis, correlation between virulence and phagocytosis resistance, 139
Pertussis, adrenaline mediation of sensitization in mice, 86
Pierce, W. E. See Lytle.
Pincus, W. B. and J. A. Flick. Inhibition of the primary vaccinial lesion and of delayed hypersensitivity by an antimononuclear cell serum, 15
Pirsch, J. B., L. A. Mika and E. H. Purlson. Growth characteristics of variola virus in tissue culture, 170
Plague, immunization against, 39
Plasmodium berghei,
  cortisone and antimalarial drug activity, 144
  effect of partial hepatectomy on infection in rats, 67
Previte, J. J. and L. J. Berry. Studies on the potentiation of endotoxin in mice by exposure to cold, 43
Purlson, E. H. See Pirsch.
Purvis, M. R. and R. Ehrlich. Effect of atmospheric pollutants on susceptibility to respiratory infection. II. Effect of nitrogen dioxide, 72

Quinn, R. W. and N. P. Lowry. Streptococcal M protein antibodies, 33

Robson, J. E. See Fisher.
Rudra, B. C. See Finkelstein.

Sadun, E. H. See Lichtenberg.
Salmonella enteritidis, effect of enteric microflora on susceptibility of mice, 59
Salmonella typhosa, respiratory challenge in chimpanzees, 131
Schiffman, E. See Mergenhagen.
Schistosoma mansoni, role of eggs in resistance, 113
Smith, F. See Altland.
Staphylococci, protein antigen inducing protection in mice, 105
Staphylococcus aureus,
  experimental infection of the subcutaneous tissue of mice, 204, 213
  membranous structures in, 179
Streptococci,
  M proteins antibodies, 33
  streptokinase-plasminogen system and virulence in rabbit skin, 77
Suganuma, A. Some features of membranous structures in *Staphylococcus aureus*, 179
Surgalla, M. J. See Janssen; also see Lawton.
Szentivanyi, A., C. W. Fishel and D. W. Talmage. Adrenaline mediation of histamine and serotonin hyperglycemia in normal mice and the absence of adrenaline-induced hyperglycemia in pertussis-sensitized mice, 86

Taliaferro, L. G. See Taliaferro, W. H.
Taliaferro, W. H. and L. G. Taliaferro. The effect of antigen dosage on the Forssman hemolysin response in rabbits, 155
Talmage, D. W. See Szentivanyi.
Thiel, J. F. See Wetmore.
Tigertt, W. D. See Tully.
Tompkins, V. N. See Muraschi.
Trichinella spiralis, immunological injury of mast cells, 22
Tully, J. S., S. Gaines and W. D. Tigertt. Studies on infection and immunity in experimental typhoid fever. V Respiratory challenge of chimpanzees with *Salmonella typhosa*, 131

Vaccinia virus, hypersensitive basis of the primary vaccinial lesion, 15
Variola virus, growth in tissue culture, 170

Wetmore, P. W., J. F. Thiel, Y. F. Herman and J. R. Harr. Comparison of selected *Actinobacillus* species with a hemolytic variety of *Actinobacillus* from irradiated swine, 186

Yellow fever virus, growth in tissue cultures, 1, 9
